Western Balkans Expert Workshop

Knowledge Transfer from Universities and Public Research Institutes: Approaches for Developing Intellectual Property Management

13 June 2012, 9 - 17 hrs Hotel Tirana International, Tirana, Albania

Objectives

The contribution of universities and public research organisations in Albania, Bosnia-Herzegovina, FYR of Macedonia, Montenegro, and Serbia to economic development is not yet fully recognised, and knowledge transfer is just beginning to gain importance: Universities need to develop concepts for joint research with industry, intellectual property management, and university spin-offs. Research personnel and students need to be trained in knowledge transfer issues. Companies need to become more involved in collaborative research. Agencies funding research and innovation need to spend more attention to knowledge transfer. This workshop is intended to discuss the status and challenges of knowledge transfer as well as good practices which are visible.

Background

This workshop supports the implementation of the European Commission's 2008 Recommendation on the management of intellectual property in knowledge transfer activities Code of Practice for universities and public and research organisations (http://ec.europa.eu/invest-in-research/pdf/ip_recommendation_en.pdf). The event is part of a workshop series covering 39 European countries in 2011 and 2012. It takes place in **co-operation with the WBC-INCO.net** project (http://wbc-inco.net/) and back-to-back with a session of the Steering Platform on Research for Western Balkan countries in the morning. Participation is for free.

Target groups

The workshop convenes stakeholders in research and knowledge transfer, in particular from universities, public research organisations, governmental organisations and business. Attendance is free of charge and by personal invitation. We expect more than 50 participants. Please note that costs for accommodation and travel can only be reimbursed to invited speakers.

Registration

Please register for the Western Balkans expert workshop at the following website (fc): http://www.knowledge-transfer-study.eu/workshops/Western-Balkans/register.

Organisation

Please address questions to Stefan Lilischkis at empirica in Bonn, the company organising the event, stefan.lilischkis@empirica.com, +49 (0)228 98530-35.

About the Knowledge Transfer Study 2010-2012

The "Knowledge Transfer Study" (monitoring study regarding the implementation of the Commission Recommendation and Code of Practice on the management of intellectual property in knowledge transfer activities in Member States and Associated Countries) is based on a Contract between the European Commission, Research and Innovation Directorate General, and empirica GmbH, the Maastricht Economic Research Institute on Innovation and Technology, RESEARCH & INNOVATION and the School of Business of the University of Applied Sciences North-Western Switzerland.

Directions from the airport

By Taxi

The fastest way to the hotel is by taxi. The journey from the airport to Tirana takes 20–25 minutes, depending on traffic, and costs about 2,500 Leke (18 EUR) one way.

Tirana Airport taxi service is provided by ATEX shpk. The website www.atex.al offers all passengers the ability to reserve taxis in advance online. The service is 24 hours a day and seven days a week. We recommend using only licensed taxis, which are yellow with a red ATEX logo and the airport logo on both sides of the vehicle. At the airport, these taxis park in front of the terminal and also at the pick-up area of the terminal.
