

6TH JUNE 20-21, 2013 ISTANBUL, TURKEY
INTERNATIONAL CONFERENCE
FOR ENTREPRENEURSHIP
INNOVATION AND
REGIONAL DEVELOPMENT

2013 REGIONAL ECONOMIC RESILIENCE THROUGH INNOVATION AND ENTERPRISE

SCOPE OF THE CONFERENCE

In the face of fragile economic recovery following the economic and financial crisis of 2008, many firms all around the world continue to invest in growth-enhancing activities to achieve a sustainable development. While the crisis has heavily hit all aspects of business vested interests, investments in innovation, entrepreneurship and regional partnership have been the key priority to ensuring a strong and stable economic growth.

The objective of the conference is to gather decision makers (government, ministries and state agencies), innovation experts (universities, research and development centres, technology transfer centres, start-up centres) and practitioners (smes, business incubators and business support organisations) to generate discussion and exchange on the potential of entrepreneurship promotion and innovation to national and regional competitiveness.

Authors are encouraged to submit papers for ICEIRD 2013 on topics lying within the scope of the conference. A list of the possible topics of interest can be found at conference website.

The official language of the conference is English.
