

A LARGE-SCALE COMPETITIVE RESEARCH INFRASTRUCTURE

# South East European International Institute for Sustainable Technologies (SEEIIST)

https://seeiist.eu

- develop a regional center of excellence in South East Europe
- support socio-economic development
- · decrease or even reverse brain drain

Core of SEEIIST: a state-of-the-art 'Facility for Tumour Therapy and Biomedical Research with Protons and Heavier Ions'

SCIENCE FOR DIPLOMACY SCIENCE FOR SOCIETY

# South East European International Institute for Sustainable Technologies (SEEIIST) in the spirit of 'Science for Peace'

First official support of such an initiative by the Government of Montenegro in March 2017, following the original proposal by Prof. Herwig Schopper, former Director General of CERN

Positive reception by a number of organizations and institutions

#### **Summary of the main missions of the SEEIIST Project**

- Science for Diplomacy
- Scientific Excellence
- International Collaboration
- Sustainable development of society
- Improving health of citizens
- Accelerating knowledge and innovation
- Reversal of brain drain
- Green Infrastructure

# Important first political step: Declaration of Intent signed at CERN on October 25, 2017

#### Signed by eight parties:

Albania, Bosnia and Herzegovina, Bulgaria, Kosovo\*, Montenegro, North Macedonia, Serbia and Slovenia.

Croatia agreed 'ad referendum', Greece took an observer status.

into a Regional Project

SEE Ministers of Science / Corresponding Ministers or their representatives at CERN

# Candidate Members for the South-East European International Institute for Sustainable Technologies

Republic of Albania

Bosnia and Herzegovina

Republic of Bulgaria

Republic of Croatia

Hellenic Republic

Kosovo\*

Montenegro

Republic of Serbia

Republic of Slovenia

Signed a Declaration of Intent Agreed 'ad referendum' Observer

\* This designation is without prejudice to positions on status and is in line with UNSC 1244/1999 and the ICJ opinion on the Kosovo Declaration of Independence

#### **Major milestone in January 2018**

Forum held at the ICTP/Trieste under the auspices of the UNESCO, IAEA and EPS

More that 100 participants

Representatives from the EC, ESFRI, IAEA, EPS, RCC, CERN, FAIR-GSI, HIT, CNAO, DESY, SESAME....

including 40 Users from the Region

Central goal of the Forum: Scientific Concept Study for the Institute presented for the first time to the public

Executive Summary of the Concept Study prepared for the Forum

Main elements of a Business Plan:

- technical parameters of the facilities
- time schedule
- investment costs
- operation costs

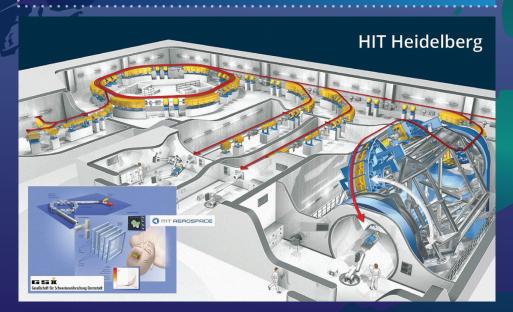

Concept Study published as a CERN Yellow Report (available under seeiist.eu)

## Facility for Tumour Therapy and Biomedical Research with Protons and Heavier Ions

About 500 patients per year to be treated as needed for a population of 20M. In parallel, 50% of the beam time dedicated to cancer research with a wide range of different ions beyond protons and C-ions as presently used, making the SEEIIST project unique in the world. Capacity for about 1000 researchers, including a major number from outside the SEE region.

Particle therapy centers in Europe Big hole in South East Europe

#### **Important further Political step Formation**

#### of an Intergovernmental Steering Committee

#### 1st Meeting January 2018, Sofia

 Election of Chairperson: Dr. S. Damjanovic, Minister of Science of Montenegro

#### 2<sup>nd</sup> Meeting March 2018, Tirana

 Project selection: Facility for Tumour Therapy and Biomedical Research with Protons and Heavier lons; Draft Memorandum of Cooperation approved

- Distribution of tasks for the Preparatory Phase

#### 6<sup>th</sup> Meeting September 2019, Budva

- SEEIIST obtained a legal status as a Swiss Association

3<sup>rd</sup> Meeting July 2018, Skopje

- Distribution of tasks for the next

Preparatory Phase of the Project

- Coordinator of the Preparatory
Group elected

#### **7<sup>th</sup> Meeting January 2020, Ljubljana**

- Preparation of Convention for the establishment of SEEIIST

8<sup>th</sup> Meeting will be held in Switzerland under the patronage of the Swiss Federal Department of Foreign Affairs - FDFA

Schweizerische Eidgenossenschaft Confédération suisse Confederazione Svizzera Confederaziun svizra

# Preparatory Group for the SEEIIST Design Study Phase set up

European Commission – Directorate General for Research and Innovation (EC DG-RTD)

 First direct financial support of 1 MEUR for the SEEIIST Design Study Phase

CERN – European Organization for Nuclear Research

- To host the Working Group 1 Accelerator Design part of the SEEIIST Design Study Phase
- Great benefit from long experience in the design of medical accelerators

GSI-FAIR – Facility for Antiproton and Ion Research

- To host the Working Group 2 R&D and Scientific Aspects of the SEEIIST Design Study Phase
- Great benefit from long experience in Bio- and Medical Physics

IAEA – International Atomic Energy Agency

- Support by the IAEA for the Capacity building program
- Open Call for the first IAEA Fellowships

# **Setting up the Preparatory Group for the SEEIIST Design Study Phase**

Overall Responsibility: SEEIIST Steering Committee

Overall coordinator of the Preparatory Group Dr. Horst Wenninger

Working Group 1 Accelerator Design at CERN Working Group 2 R&D/Scientific Aspects at FAIR-GSI

Working Group 3 Legal Aspects + Business Plan SEEIIST SC

No matter where SEEIIST will be located

- National Benefits across the whole Region -

Treatment of patients: all participating parties will have their share for treatment of patients

**Involving the local industry:** the construction of the Facility would require more than 200 companies. The production of many different components can preferentially be assigned to our local industry.

Powerful digital networks and big data handling - to reach the clinical and scientific goals two Networks will be set up, a Clinical Network and a Scientific Network, to be located in different parts of the region.

Building innovative capacities in the SEE region in a cutting edge field such as Hadron Therapy: - funding from IAEA (TC-RER Project 0.5 MEUR approved); -H2020 EU (COST and MC-ITN -'TREASURE for Fighting Cancer' submitted)

### Timeline of the SEEIIST Project

Basic concepts for a SOUTH-EAST EUROPE INTERNATIONAL INSTITUTE FOR SUSTAINABLE TECHNOLOGIES (SEEIIST)

2019

- Start of the **Design Study Phase** at CERN
  - Set-up of a legal entity

2020

For SEEIIST up to 200 MEUR required, guaranteeing competitivity in Europe. Multiple sources of financing necessary: EU Structural and cohesion funds, IPA funds, some contributions from member-states, other funds. We also hope for the support by the Berlin Process.

2022

Start construction of the Facility

> 2028 First patient treatments

2017-2018 Concept Study

# Another Milestone for SEEIIST: Memorandum of Cooperation signed by six Prime Ministers of the Region

Signature at the 6th **Summit of the Berlin Process** on 5 July, 2019 in Poznan Poland. Memorandum signed by six Prime Ministers: Albania, Bosnia and Herzegovina, Bulgaria, Kosovo\*, Montenegro and North Macedonia.

Special Event - "Start of the SEEIIST Design Phase" on 18 September 2019 in Budva, Montenegro

# Start of the SEEIIST Design Phase marked by the Kick-off event held in Budva

Prime Minister of Montenegro opened the event

Purpose of the event - to inform the public about the advancement of SEEIIST which has moved from its Conceptual to the Design Phase

More than 120 people met to discuss the further developments of the SEEIIST Project

### **Green Concept for the SEEIIST Project**

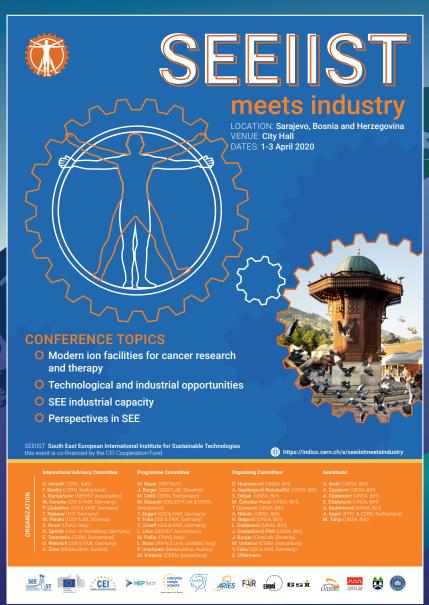

# **SEEIIST First Green Particle Cancer Therapy and Research**

Action in Place – preparing a convincing concept of SEEIIST as a Green Infrastructure: Green Energy – Green IT ....

Special event 'SEEIIST meets Industry' on 1-3 April 2020 in Sarajevo, B&H

# SCIENCE FOR DIPLOMACY SCIENCE FOR SOCIETY
